

Cassandra Morcilla, Class of 2016

Law Licensing Candidate, NCA

“ You don't need to have everything figured out right away, it is okay to be unsure about your next steps at this early stage of your academic/professional career and that there may be different paths you discover and want to explore as you move on. ”

I received my undergraduate degree in Sociology and Political Science from the University of Toronto in 2020 and then went on to complete my law degree in England at the University of Southampton in 2023.

I have since moved back to Toronto and am now working on my law licensing exams. I am interested in the areas of business, immigration and wills/estates law.

I am forever grateful to SJCS for giving me a strong foundation and leading me to where I am today.
