

Jennifer Ridgeway, Class of 1994

Teacher, TCDSB

“ Use an organizational planner at the beginning of every day. ”

I have 20+ years of experience in education. I spent 22 years working in various secondary school departments including Guidance & Career Education, Student Success, and Special Education.

I am currently in a career transition which includes: educational coaching, occasional teaching, and serving on community committees. I am able to connect with students regarding their academics, emotional challenges, and extracurricular aspirations and develop and execute programs and processes in these domains.

I believe in experiential learning, play, and the importance of helping students develop their unique interests and skills.
