Everything changes with time.
The situation you are in now will
change. Things will get better.
”

I am a teacher of the Deaf and Hard of Hearing. I work for the Toronto District School Board. I have been a Teacher of the Deaf for the past five years, and a teacher for the past eleven years.

The connections that I made at SJCS lead to this career path. One of my good friends, who is also a speaker at this event, has a child who was born Deaf. It because of this friend, that I was led to this very rewarding and fulfilling career.
