

## Lovely Juson, Class of 2014

Senior Program Relations Advisor,  
Infrastructure Ontario

“Explore, be open to everything and take on every opportunity that's presented to you. You'll never know where the connections and experiences you have will take you.”

Lovely is a Senior Program Relations Advisor at Infrastructure Ontario working within the areas of urban infrastructure, planning and engagement. She has experience working in diverse industries and her educational background in urban studies, human geography, and economics provides her with a strong background in housing, transportation, sustainability, and development. She is actively working on transit-oriented communities in Ontario and has been involved in various multi-stakeholder projects. She has traveled internationally for work and has extensive experience working with different communities and collaborating with individuals from all types of backgrounds. Lovely's work with diverse communities led to her passion for helping people be active agents in shaping their communities through meaningful and effective community engagement and collaborative planning processes.
