

Odessa Gill, Class of 1995

Naturopathic Doctor,
Aspire Health Naturopathic Clinic

“
Work hard but also have more fun!
I wish I had travelled more when
younger...it is harder to get away
and be so carefree now!
”

I am a Naturopathic Doctor with a private practice in Bloor West Village. I have been in practice for 20 years and work collaboratively with a team of healthcare professionals at my Wellness Clinic - Aspire Health. I have also worked at a pharmaceutical company, medical research labs, and as a Wellness consultant for Loblaw Ltd, Purity Health Products in Toronto. My passion is health and all things wellness!

My time at St. Joe's was one of the best periods of my life. The school provided me with a second home away from home and allowed me to flourish in countless ways. I am forever grateful for the friends and I made at St. Joe's and the supportive teachers.
